ABOUT US

The Performance Act exists to grow **hauora** in sporting communities across **Aotearoa**. We use evidence-based psychological tools to create real, lasting change — for individuals and the communities around them.

Community sport is more than competition. It's a platform for growth, connection, and meaningful **kōrero**. We work alongside athletes, coaches, and **whānau** to strengthen the environments where people thrive.

OUR APPROACH

20+

YEARS EXPERIENCE

500+

ATHLETES SUPPORTED

50+

WORKSHOPS DELIVERED

3

PACT PILLARS

OUR PACT

Three pillars that guide everything we do.

01

IMPACT

We deliver evidence-based programs led by high-quality practitioners. Integrating research, clinical expertise, and organisational values to create meaningful, lasting change.

02

INCLUSIVITY

We leverage sports and educational environments to reach diverse communities. Committed to Te Tiriti o Waitangi, we implement culturally safe practices that honour every participant.

03

CARE

We empower all participants by recognising them as the experts of their own experiences. Every challenge is valid, and every person deserves to be heard and supported.

WHO WE SUPPORT

ATHLETES

COACHES

WHĀNAU

Supporting Athletes

We equip athletes with evidence-based psychological skills that transfer from sport into everyday life.

- Greater concentration & focus skills
- Closer connection to purpose and increased motivation
- Clear strategies for performance anxiety management
- Improved social connectedness with team members
- Tools for navigating pressure and setbacks

PSYCHOLOGY, APPLIED IN SPORT

Our work is grounded in **evidence-based psychology** and shaped by the realities of sport. We draw from a range of approaches to build support that fits the person, their environment, and the challenges they face.

Rather than forcing people into a rigid model, we mould practical tools around what matters most — helping athletes, coaches, and **whānau** navigate pressure, respond to setbacks, and move forward with greater clarity, confidence, and purpose.

WHAT WE OFFER

Every program is built for you.

We don't do off-the-shelf. Every program is tailored to the specific needs of your **club**, **school**, or **organisation**. We work with you to design a support package that creates real impact for your community.

Below are examples of what we can build together. All programs include access to **GROW**, our online learning hub.

Athlete Development Workshops

Interactive sessions building focus, resilience, and psychological flexibility for athletes at any level.

Coach Education

Equipping coaches with tools to build better learning environments and support athlete wellbeing.

Parental Support

Helping whānau understand their role in the sporting experience and strengthen connections with their tamariki.

Webinar Series

Accessible online sessions covering mental skills, the psychology of coaching, and building team culture.

Dealing with Pressure Series

A structured workshop series focused on navigating high-pressure moments in sport and life.

Something Else?

Have a specific need? Let's design something together. Every community is different — your program should be too.

LET'S BUILD YOUR PROGRAM

THE GROW PLATFORM

GROW is our online hub that centralises all digital course materials,

resources, and coaching tools in one place.

- Self-paced video courses
- Ready-to-use session plans
- Extensive digital resource library
- Workshop materials and follow-up content

LEARN MORE ABOUT GROW

OUR WHĀNAU

JASON YUILL PROCTOR

DIRECTOR OF PERFORMANCE PSYCHOLOGY

Senior Performance Psychologist at High Performance Sport New Zealand for 10 years. Instrumental in the psychological development of NZ rowing, track cycling, and equestrian teams. Pivotal to their successes at recent Olympic Games.

JAMES ORRITT

PSYCHOLOGICAL SKILLS COACH

Former student-athlete in elite rugby. Studying sport and psychology at the University of Canterbury for 6 years. Presently pursuing training as a Clinical Psychologist. Leading research on effective communication strategies for coaches.

WHAT PEOPLE SAY

"The ideas were specific to what we actually might deal with in our sports and life... I started to understand some of the solutions to the struggles I was having."

PROGRAM PARTICIPANT

Athlete Workshop

"I cannot speak more highly of the professionalism and the level of presentation..."

RILEY GAIN

St. Andrew's College — Teacher in Charge of Athlete Sport Development

— THE PERFORMANCE ACT

OUR APPROACH

Evidence-based sport psychology shaped around your world, your values, and your goals. We help people grow — through sport, through challenge, and through genuine connection.

VEHICLE • SKILLS FOR LIFE • MEMORIES THAT SHIFT MINDSETS • WALKING ALONGSIDE YOU • EVIDENCE-BASED • BUILT FOR YOU • GROUNDED IN AOTEAROA •

01

We believe sport is one of the most powerful platforms available for growing **hauora** — holistic wellbeing. Not because of the scores or the trophies, but because of what happens *inside* the people who play, the coaches who guide, and the whānau who support from the sideline. The

SPORT IS THE CLASSROOM

moments forged in sport — backing yourself under pressure, lifting a teammate, persisting through difficulty — become the foundation for psychological skills that carry well beyond the field.

SKILLS THAT TRANSFER

Focus, resilience, emotional regulation, communication — sport is where these are practised under real pressure, and where they become genuinely owned.

MEMORIES THAT MATTER

The triumphs, setbacks, and bonds of sport shape how people see themselves. We help people build on those moments intentionally, as anchors for confidence and growth.

MINDSETS THAT SHIFT

When someone proves to themselves they can manage pressure and persist through difficulty, it has the potential to change their relationship with challenge itself.

WE DON'T LEAD YOU. WE DON'T FOLLOW YOU. WE WALK ALONGSIDE.

02 YOUR GUIDE, NOT YOUR DIRECTOR

NOT LEADING

We're not here to tell you what to think, how to feel, or hand you a fixed map. You are the expert of your own experience — we respect that fully. Our role is never to impose a direction, but to support you in finding the one that's right for you.

OUR WAY

WALKING ALONGSIDE

We travel with you. We ask honest questions, share relevant tools at the right time, and build a support structure shaped entirely around your world, your values, and the goals that matter to you. This is a genuine partnership — collaborative at every step.

NOT FOLLOWING

We bring genuine expertise, evidence, and honest challenge to the relationship. We're not here to simply agree with everything — growth sometimes requires uncomfortable conversations, and we owe it to you to be truthful when it matters.

Nothing off the shelf. Nothing one-size-fits-all. We are committed to working in ways that honour Te Tiriti o Waitangi and respect the diverse communities across Aotearoa — because context matters, and the tools you develop are yours.

03

GROUNDING IN EVIDENCE

Everything we do is guided by the principles of **evidence-based practice** — the gold standard across psychology and sport science. This isn't about picking a single technique off a shelf. It's about bringing together three things, every time, for every person we work with.

BEST AVAILABLE RESEARCH

The tools we use are supported by peer-reviewed research in sport psychology and the wider psychological sciences — not just popular ideas or trends. We stay honest about what the evidence supports and where its limits are.

PILLAR 01

PRACTITIONER EXPERTISE

Research alone doesn't do the work — people do. Our practitioners bring the professional training and judgement to know which approach fits which situation, and how to adapt it to the real, human context in front of them.

PILLAR 02

YOUR VALUES, YOUR CONTEXT

The most important pillar. No approach works unless it fits **you**. We listen to what matters to you, respect your autonomy, and shape everything around your world, your values, and your cultural context. This is where evidence becomes personal.

PILLAR 03

WE NEVER ASK:

~~“WHAT’S WRONG WITH YOU?”~~

WE ALWAYS ASK:

**“WHO DO YOU WANT TO BE
WHEN IT MATTERS MOST?”**

We don’t start with what’s broken — we start with **who you want to become**.

Our starting point is always identity: your values, your purpose, the kind of person you want to show up as when it counts. Growth, not repair. Possibility, not pathology.

04

WHAT TO EXPECT WORKING WITH US

1

A CONVERSATION FIRST

Everything starts with a free, no-pressure kōrero — a chance to share what's going on and find out if we're the right fit. We're transparent about what we can offer, and if we're not the right match, we'll point you in the right direction.

2

UNDERSTANDING YOUR WORLD

Before any tools or strategies, we listen. We take time to understand your sport, your environment, your values, and your cultural context — and we cover informed consent and confidentiality so you know exactly how we work together.

3

BUILDING TOOLS TOGETHER

We co-design practical strategies shaped around your life and your sport. You're involved at every step — because tools you helped shape are tools you'll actually use. If something isn't working, we adjust.

4

GROWING TOGETHER

We check in, reflect honestly, and track progress together. The ultimate goal is for you to carry these skills forward on your own — that's what walking alongside actually means.

these skills forward on your own — that's what walking alongside actually means.

COMMON QUESTIONS

DO I NEED TO HAVE A PROBLEM TO WORK WITH YOU?

IS THIS THE SAME AS THERAPY OR COUNSELLING?

IS EVERYTHING I SHARE KEPT CONFIDENTIAL?

WHAT ARE YOUR QUALIFICATIONS AND ETHICAL STANDARDS?

HOW LONG DOES IT TAKE TO SEE PROGRESS?

CAN YOU WORK WITH TEAMS AS WELL AS INDIVIDUALS?

READY TO TAKE THE FIRST STEP?

Every journey starts with a conversation — no pressure, no commitment, just a genuine kōrero about your world and what you're looking for. Let's find out if we're the right fit together.
